ISC Consulting Group Announces Partnership with EtQ, Inc.

Sierra Vista, AZ—April 8, 2010—ISC Consulting Group is pleased to announce EtQ as a new business partner.

ISC is the premier provider of Geospatial Intelligence (GEOINT) consulting and is a provider of Safety Management consulting expertise to commercial clients in the aviation industry. EtQ and ISC will leverage their partnership to collaborate on Safety Management System (SMS) efforts.

“We are excited about our partnership with ISC and we look forward to leveraging their knowledgebase to widen the scope of our SMS capabilities,” stated Glenn McCarty, Chief Executive Officer at EtQ. “EtQ has the tools necessary to provide organizations with an automated SMS and ISC provides a new capability for us with their niche in safety management consulting. This, combined with EtQ’s technology tools, will result in a total best-in-class solution for the airline industry and will encompass their needs whether the solution they are looking for is software, consulting services, or both.”

About ISC

ISC Consulting Group is built on the fundamental value of service to country and community. ISC began their business in 2005 supporting key clients in the commercial and Military Intelligence markets. Having been the premier provider of mission critical support and System Engineering Technical Assistance (SETA) services to the U.S. Army Intelligence Center of Excellence (USAI CoE) and the Intelligence Community (IC), ISC is now the premier provider of Geospatial Intelligence (GEOINT) consulting. ISC continues to serve the commercial market by providing consulting expertise to their commercial clients in aviation. ISC offers a wide range of consulting services to commercial air carriers (both parts 121 and 135), training organizations (both parts 141 and 142), and FAA repair stations (part 145) as well as airports, educational institutions, and non-profit organizations. ISC’s senior practitioners bring real world experience that makes an instant impact on an organization’s ability to develop and implement Safety Management Systems. The end result of ISC’s SMS consulting services is an SMS that not only conforms to the expectations of the FAA’s SMS framework, but one that makes a measurable difference for their client’s operations. For more information, contact ISC at 520-378-6112 or email steve.dufour@isc-cg.com or visit ISC at www.isc-cg.com.

About EtQ

EtQ is the leading Enterprise Quality and Compliance Management software for identifying, mitigating, and preventing high-risk events through integration, automation, and collaboration. EtQ uses best-in-class, integrated modules and enterprise application integration to manage and measure quality and compliance processes and execute organizational change. Key modules within the product include Document Control, Corrective and Preventive Action (CAPA), Audits, HACCP, Complaint Handling, Risk Management, Change Management, Employee Training, Project Management, Nonconforming Materials, Enterprise Reporting, and more than 20 additional compliance-oriented modules. With its world-class flexible workflow, collaborative platform, EtQ has developed a unique niche to support enterprises involved in various compliance management initiatives such as: AS 9001, ISO 13485, ISO 9001:2008, ISO/TS 16949, ISO 14001, ISO 22000, GMP (FDA), TL 9000, OHSAS 18001, RoHS, Sarbanes-Oxley, HACCP, SQF, BRC, IFS, and similar standards for compliance and regulatory management. EtQ has been providing compliance solutions to a variety of markets for over 15 years. For more information or to schedule a virtual demo, contact EtQ Inc., at 800-354-4476 or 516-293-0949, or info@etq.com. Visit EtQ at www.etq.com.
